To whom it may concern,

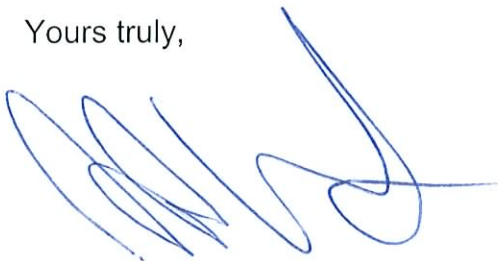

### **Eclipse Regulatory Compliance Specialists (ERCS)**

Birchill Energy Limited has dealt with Eclipse since 2004, during which time they have provided Birchill with very efficient service in the areas of maintaining regulatory compliance. They have assisted us with several pipeline & facility applications as well as audit presentations.

Their diligent work & thorough regulatory knowledge has been a significant contributing factor in allowing Birchill to conduct a high volume of business with minimal hiccups or delays, helping us to remain compliant in all applications that Eclipse has been involved with. In particular ERCS and the relationships they hold with the various regulating bodies proved very helpful with respect to executing several of our pipeline projects in the Green zone area in Willesden Green, over the past year.

Birchill can confidently recommend Eclipse Regulatory Compliance Specialists as a solid and reliable partner, and one which exhibits expertise in their field.

Yours truly,

**BIRCHILL ENERGY LIMITED**
