To whom it may concern,

**Re: Eclipse Regulatory Compliance Specialists (ERCS)**

I confirm that Crew Energy Inc. has dealt with Eclipse since 2005, during which time they have provided my business with excellent service in the areas of regulatory compliance. They have helped us with several pipeline & facility applications as well as environmental and miscellaneous regulatory items.

Their work & expertise has been a major factor in our ongoing success, helping us to remain 100% compliant in all applications that Eclipse has been involved with. In particular ERCS and the relationships they hold with the various regulating bodies proved very helpful with respect to executing our projects.

I can confidently recommend Eclipse Regulatory Compliance Specialists as a solid and reliable partner, and experts in their field.

Regards,
